### PERSONAL PROFILE

I build stuff. I break stuff. Then I build it better... I'm a web developer, passionate about clean code, good design, and creating software that feels great to use. Constantly improving, always curious, never bored.

### WORK EXPERIENCE

**Software Developer**
OPEN Digital Services Roumanie          Sept 2021 - Present

Financial software development using:
- C#/NET Core, JS/Vue.js/jQuery, SQL/T-SQL, Docker, etc ...

**Software Engineer Intern**
Q&Q Info Consult SRL          Mar 2020 - Sept 2020

Business software development using:
- C#, .NET Core, EF Core, Windows Forms, React.js

### EDUCATIONAL HISTORY

**IT&C Security Master - Cyber Security Master**
ISM          Oct 2021 - July 2023

**Bucharest University of Economic Studies**
Economic Informatics          Oct 2018 - July 2021

**"Mihai Viteazul" Theoretical Highschool**
Mathematics-Informatics          Sept 2014 - June 2018

### PROJECTS

**Home ownership management platform**          2023
SaaS solution with multitenancy to manage home ownersip associations. There is a SSO app (OIDC/OAuth2), 2 client apps built with Vue.js and a .NET Core 8 API (https://app.hoa.cv.cmcosmin.com/)

**Ticket Tracker**          2021
A single-page application that keeps track of projects' tickets and of the developers' work. The client app is built using React.js and the backend api using ASP.NET Core 5 (https://tt.cv.cmcosmin.com/)

**Facturi**          2019
A desktop application that generates bill payment scenarios based on certain criteria. It's built using C# and EF. (https://github.com/ciucacosmin109/Facturi)
